VENKATESAN D

PHP Developer | Lead Application Developer

Coimbatore, Tamil Nadu, India | 9688213541 | venkatvs131@gmail.com | linkedin.com/in/venkatesan-devaraj

PROFESSIONAL SUMMARY

Results-driven **PHP Developer and Lead Application Developer** with **5+ years of experience** designing, developing, and deploying enterprise web applications and ERP solutions. Proficient in **PHP 7/8, CodeIgniter 3/4, MySQL, JavaScript, jQuery, AJAX, and REST APIs**, with proven experience leading development teams, architecting scalable MVC applications, automating business workflows, and delivering secure, high-performance software. Strong domain background in Educational ERP, HRMS, ticketing systems, government projects, biometric device integration, and AI-enabled features. Committed to code quality, mentoring developers, and collaborating with cross-functional stakeholders to deliver reliable, user-focused solutions.

TECHNICAL SKILLS

Backend: PHP 7/8, Core PHP, CodeIgniter 3/4, MVC Architecture, REST API Development

Frontend: HTML5, CSS3, Bootstrap, JavaScript, jQuery, AJAX, Dashboard & UI/UX Design

Database: MySQL, SQL, Database Design, Query Optimization

Tools: Git, GitHub, VS Code, Postman

Integration: API Integration, Third-Party Services, Biometric Device Integration (.NET), Email/SMS/Push Notifications

Core Competencies: Team Leadership, Code Review, Project Coordination, Testing & Debugging, Performance Optimization, Application Deployment

WORK EXPERIENCE

Lead Application Developer (PHP / CodeIgniter) **August 2021 – Present**

eNova Software and Hardware Solutions Pvt Ltd, Coimbatore, Tamil Nadu

- Lead and mentor a team of developers by assigning tasks, conducting code reviews, and enforcing coding standards to maintain code quality; led a 3-member team on the **HRMS** project from development through deployment.
- Architect, develop, and maintain **Educational ERP, HRMS, Library, Fee, Inventory, Online Examination, Mentor Management, and Student Information Systems** using PHP, CodeIgniter, and MySQL.
- Design and implement **workflow-based automation** that replaces manual approvals and streamlines institutional business processes.
- Build reusable modules and secure **RESTful APIs** that enable web and mobile application integrations.
- Develop **AI-powered features**, including intelligent question generation for online examinations and analytics-driven reporting dashboards.
- Create custom dashboards, reporting interfaces, and interactive front-end features with JavaScript, jQuery, and AJAX to improve usability and decision-making.
- Integrate **biometric attendance devices using .NET** and connect them to web applications for accurate attendance tracking.
- Test, debug, and optimize server-side code and database queries to improve application performance and security.
- Collaborate with software development and testing teams to design, build, and release applications across multiple platforms.
- Contribute to **government projects**, ensuring compliance with regulatory standards and delivering solutions that enhance public services.

PROJECTS

Educational ERP System

Technologies: *PHP, MySQL, CodeIgniter, AJAX, jQuery, REST API*

Modules: Student Admission, Examination, Fee, Library, Inventory, HRMS, Student Portal, Online Examination, Mentor Management, Certificate Generation, Attendance, Timetable, Reports & Analytics.

- Designed a scalable ERP architecture with role-based security and workflow automation.
- Built dynamic dashboards and reports, and optimized application performance.
- Developed the Online Examination System with AI-powered question generation.
- Built REST APIs for web and mobile integration.

HRMS – Human Resource Management System

Technologies: *PHP, MySQL, CodeIgniter, AJAX, jQuery | Team size: 3 (Team Lead)*

- Developed a **biometric-based attendance system** to track employee working hours.
- Automated **salary calculation** from attendance data, reducing manual errors and processing time.
- Integrated leave management and payroll generation with tax and deduction calculations.
- Designed **role-based access** for HR, admin, and employees; optimized database queries for faster payroll and reports.
- Implemented push notifications and email alerts for approvals, and REST APIs for third-party tools and mobile apps.

Educational Institution Management System

Technologies: *PHP, MySQL, CodeIgniter, AJAX, jQuery*

- Developed a centralized student and faculty management system for schools and colleges.
- Automated fee collection and tracking, reducing manual workload; built custom ID card generation.
- Designed attendance and marks entry, and student performance analytics with easy report generation.
- Built certificate and experience letter generation, and an online transport management module for bus route tracking and fee collection.

Ticketing System

Technologies: *PHP, MySQL, CodeIgniter, AJAX, jQuery*

- Built a ticketing platform for companies to manage customer issues and support requests.
- Implemented priority-based ticket assignment for better response times, with email and SMS alerts for updates and escalations.
- Created customer license renewal tracking and a detailed product history module.
- Integrated advanced search and filter options for quick issue resolution.

Dynamic Website using CodeIgniter 4

Technologies: *CodeIgniter 4, MySQL, AJAX, jQuery*

- Designed and developed a responsive, dynamic website with a custom content management system for admin control.
- Created SEO-friendly URL structures, optimized page load performance, and ensured cross-browser compatibility.
- Developed user authentication with role-based access control and integrated third-party APIs for real-time data.

EDUCATION

Bachelor of Computer Applications (BCA) – 74% **2021**

RVS College of Arts and Science, Bharathiar University, Coimbatore

Higher Secondary Certificate **2018**

Sri K Krishnaswamy Naidu Higher Secondary School, Coimbatore

Secondary School Leaving Certificate **2016**

Sri K Krishnaswamy Naidu Higher Secondary School, Coimbatore
