PROFILE SUMMARY

Results-driven **Lead Application Developer** with **5+ years of experience** in designing, developing, and deploying enterprise web applications and ERP solutions. Experienced in leading development teams, designing scalable architectures, implementing workflow automation, and delivering secure, high-performance software solutions. Expertise in **PHP 7/8, CodeIgniter 3/4, MySQL, JavaScript, jQuery, AJAX, REST APIs**, and full-stack web development. Strong background in Educational ERP, HRMS, Ticketing Systems, Government Projects, Biometric Integration, and AI-enabled application development. Passionate about solving complex business problems through innovative technology while mentoring teams and ensuring high-quality software delivery. Adept at leading teams and collaborating with cross-functional stakeholders to deliver scalable and highquality solutions.

SKILLS & EXPERTISE

- Backend Development: PHP, Core PHP, CodeIgniter, CodeIgniter
- Frontend Development: HTML, CSS, JavaScript, jQuery, AJAX
- Database Management: MySQL, SQL
- Web Application Development
- Dashboard & UI/UX Design
- Testing & Debugging
- Project Coordination & Team Leadership
- API Integration & Third-party Services
- Biometric Device Integration (.NET)
- Government Project Experience

WORK EXPERIENCE

eNova Software and Hardware Solutions Pvt Ltd, Coimbatore

August 2021 - Present

Lead Application Developer

- Developed and deployed custom web applications on multiple platforms.
- Collaborated with software development and testing teams to design, develop, and optimize applications.
- Lead and mentor development teams by assigning tasks, reviewing code, and ensuring coding standards.
- Develop and maintain **Educational ERP, HRMS, Library Management, Fee Management, Inventory, Online Examination, Mentor Management**, and Student Information Systems.
- Design **workflow-based automation** to improve institutional business processes.
- Build reusable modules and **RESTful APIs** for web and mobile integrations.
- Develop **AI-powered features** including intelligent question generation and reporting dashboards
- Implemented scripts and interactive features to enhance **user experience and functionality**.
- Designed **custom dashboards and reporting interfaces** to improve usability.
- Worked on **biometric device integration** using .NET for attendance tracking solutions.
- Tested and optimized **server-side code** for performance and security.
- Led a **3-member team** for the **HRMS** project, overseeing development and deployment.
- Contributed to **government projects**, ensuring compliance with regulatory standards and delivering solutions that enhance public services.

PROJECTS

Educational ERP System

Technologies Used: PHP, MySQL, CodeIgniter, AJAX, jQuery, REST API

Modules

- Student Admission.
- Examination Management
- Fee Management
- Library Management
- Inventory
- HRMS
- Student Portal
- Online Examination

- Mentor Management
- Certificate Generation
- Attendance Management
- Timetable
- Reports & Analytics

Key Contributions

- Designed scalable ERP architecture.
- Developed workflow automation.
- Created dynamic dashboards and reports.
- Implemented role-based security.
- Developed Online Examination System.
- Created AI-powered Question Generation.
- Optimized application performance.
- Built REST APIs.

HRMS - Human Resource Management System

Technologies Used: PHP, MySQL, CodeIgniter, AJAX, jQuery

Team Size: 3 (Led the team)

Key Features & Contributions:

- Developed a biometric-based attendance system for tracking employee working hours.
- Automated salary calculation based on attendance data, reducing manual errors and processing time.
- Integrated leave management and payroll generation with tax and deduction calculations.
- Designed role-based access for HR, admin, and employees to maintain data security.
- Optimized database queries for faster payroll processing and report generation.
- Implemented push notifications and email alerts for employee approvals and notifications.
- Worked on REST API integration for third-party tools and mobile apps.

Educational Institution Management

Technologies Used: PHP, MySQL, CodeIgniter, AJAX, jQuery

Key Features & Contributions:

- Developed a centralized student and faculty management system for schools and colleges.
- Created custom ID card generation for students and staff.
- Automated fee collection and tracking, reducing manual workload.
- Designed attendance and marks entry system for easy academic tracking.
- Implemented student performance analytics, allowing easy report generation.
- Built a certificate and experience letter generation module for students and faculty.
- Developed an online transport management system for bus route tracking and fee collection.

Ticketing System

Technologies Used: PHP, MySQL, CodeIgniter, AJAX, jQuery

Key Features & Contributions:

- Built a ticketing platform for companies to manage customer issues and support requests.
- Implemented a priority-based ticket assignment system for better response times.
- Created customer license renewal tracking to improve follow-ups.
- Designed a detailed product history tracking module, reducing confusion in customer support.
- Developed email and SMS alerts for ticket updates and escalations.
- Integrated advanced search and filter options for quick issue resolution.

Website Development Using CodeIgniter 4

Technologies Used: CodeIgniter 4, MySQL, AJAX, jQuery

Key Features & Contributions:

- Designed and developed a responsive, dynamic website using modern UI/UX principles.
- Implemented custom content management features, allowing admin control over website updates.
- Created SEO-friendly URL structures and optimized performance for faster page loading.
- Developed a user authentication system with role-based access control.
- Integrated third-party APIs for real-time data fetching and processing.
- Ensured cross-browser compatibility and mobile responsiveness.

STACK OF TECHNOLOGIES

- Backend: PHP 7/8, Core PHP, CodeIgniter 3/4, REST API Development
- Frontend: HTML5, CSS3, Bootstrap, JavaScript, jQuery, AJAX
- Database: MySQL, SQL, Database Design & Query Optimization
- Tools & Version Control: Git, GitHub, VS Code, Postman
- Others: API Integration, Third-Party Services, Biometric Device Integration, Performance Optimization, Debugging & Troubleshooting, Application Deployment

EDUCATION

Bachelor of Computer Applications (BCA)	2021
RVS College of Arts and Science, Bharathiar University - Coimbatore	CGPA - 74
Higher Secondary Certificate	2018
Sri K Krishnaswamy Naidu Higher Secondary School - Coimbatore	CGPA - 53
Secondary School Leaving Certificate	2016
Sri K Krishnaswamy Naidu Higher Secondary School - Coimbatore	CGPA - 64
